

REGISTRATION

The first 100 teachers
to register will receive

FREE

The Izaak Walton League
Save Our Streams
Project Packet.

How to Receive Our Programs

Anyone with a moveable C-Band satellite dish can participate in our programs. All you need is access to the satellite receiver, a monitor and a VCR (if you wish to tape the programs for future use). For live programs, you will also need a telephone to call the toll-free number and talk with the subject experts.

If you do not have a satellite dish, your local cable company or public television station may be able to provide you access to the programs. Please check with these organizations early. Also check with district or regional media centers to see if they can provide you access to the programs. If you cannot receive the programs by live means, programming is available on video tape for an additional charge through the Prince William Network.

What You Will Receive as a Registered Participant

Once registered you will have complete rights to tape the program for later use in your school, and you may duplicate support materials for all participants.

Satellite coordinates, web site information, teacher activity guide, and support materials will be mailed to your site prior to the program.

FREE TO ALL SCHOOLS

For On-Line Registration www.pwnet.org

Available June 4, 1999

Wild Things '99

Watersheds: *Rivers Run Through Them!*

October 7, 1999

12 Noon - 1:30 PM ET

Grades 4 - 8

Live from Boyer Chute National Wildlife Refuge in Nebraska along the banks of the Missouri River

Learning about watersheds has never been so exciting! From your classroom, come with us for an excellent adventure into watersheds! Join U.S. Fish and Wildlife Service biologists, other educators, and students in identifying a watershed and how its health can impact aquatic life and YOU! Learn what you and your students can do to enhance our watersheds to the quality Lewis and Clark found when they explored the Missouri River almost 200 years ago!

Gavins Point Fish Hatchery

Pallid Sturgeon (Endangered Species)

"We'll see this amazing prehistoric resident who still inhabits the Missouri River."

WHO:
WHAT:

Teachers and Students - Grades 4 - 8
FREE interactive distance learning, satellite and internet watershed adventure

WHEN:
WHERE:

October 7, 1999 - 12 noon - 1:30 PM ET
"Live" from Boyer Chute National Wildlife Refuge, Nebraska - along the banks of the Missouri River
See attached registration form

HOW:
WHY:

Objectives

- What is a watershed?
- Why should I care about them?
- How do we measure the health of a watershed?
- What is the Fish and Wildlife Service doing to improve the quality of watersheds?
- What can **you** and **your** students do to help?

How does this program relate to you and your students?

- **You** and **your** students live in a watershed
- **You** and **your** students live downstream
- Your watershed's health affects **you** and **your** students
